MOMEMTUM KIDS CLUB

Beyond the Bell: Enrichment and Exploration Before and After School

2026

Framework

Welcome to MOMentum Kids Club, where we believe kids thrive when they have the freedom to explore, create, get messy, be silly and JUST BE KIDS. Our before and after school programs are designed to balance structure with flexibility; giving children a safe, supportive environment to prepare for school each morning, and/or unwind at the end of each learning day.

We focus on building friendships, encouraging creativity, and fostering independence by prioritizing our “Before the Bell” pillars;

- **Inclusion** – Every child is welcomed, valued, and supported as an individual
- **Flexibility** – A mix of structured activities and free choice time
- **Family Support** – Open communication and opportunities for parent involvement
- **Play** – Because play is essential for learning, growth, and happiness
- **Hobbies & Service** – Encouraging kids to explore passions and give back

Thank you for partnering with us in this important journey of learning and development.

MOMentum Staff Team

Daily Activity Zones

Exciting and engaging zones where kids get to nurture their curiousity and explore their interests, or find new ones!

Discovery Den

Dive into nature and science through hands-on experiments and outdoor exploration

Cooking Corner

Whip up tasty treats while learning basic kitchen skills with fun, kid-friendly recipes

Craft Cottage

Get creative with art projects, DIY crafts, and imaginative expression

Sports Zone

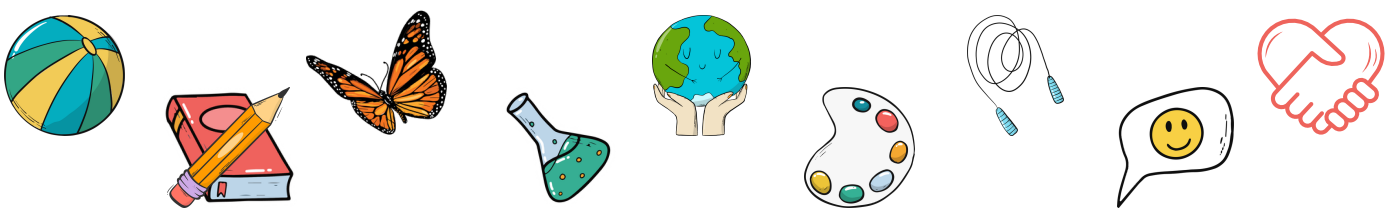

Stay active with games, team challenges, and activities for all skill levels

Game Central

Enjoy board games, puzzles, and group challenges that build strategy and teamwork

Homework Helpers

Conquer homework, ace projects, and master classes; whether you're studying with friends or working 1-on-1 with our staff

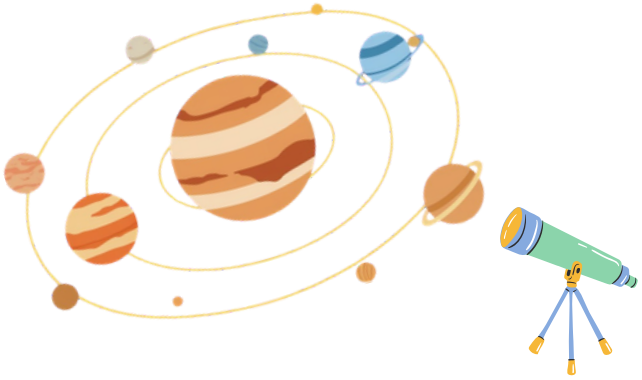

Discovery Den

Dive into nature and science through hands-on experiments and outdoor exploration

Activities

STEM
Exploration of science, technology, engineering and math through hands-on activities and creative play

Nature Walks
Explore the outdoors to observe plants, animals, and weather, fostering an understanding of the environment

Sensory Exploration
Controlled environments where children can explore their world through all five senses

Building Zone
Create skyscrapers, entire cities or anything they can think of with blocks, legos, magnatiles, etc.

Cooking Corner

Whip up tasty treats while learning basic kitchen skills with fun, kid-friendly recipes

Activities

Snacktivities
Allergy-friendly activities where children create their own snacks for the afternoon

Cooking Basics
Learn how to chop up fruits, vegetables and other kitchen essentials with supervised and kid-safe tools

Kitchen Chemistry
Teacher-led activities that show kids the magic of cooking. Make your own ice cream in a bag, butter jar shaking, bread making, etc.

Craft Cottage

We encourage children to explore their unique voice and creativity through diverse artistic experiences, including visual arts, music, movement, and dramatic play.

Activities

Creative Center
Provided with a variety of materials (e.g., paint, clay, crayons), kids create art projects that encourage creativity

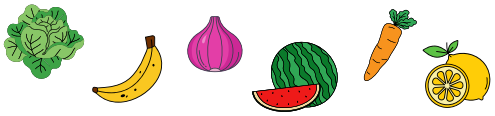

Music and Movement
Incorporate daily music and movement sessions where children can explore rhythm, instruments, and dance

Storytelling
Create your own comic book, adventure story or song; we encourage kids to express their creativity through words

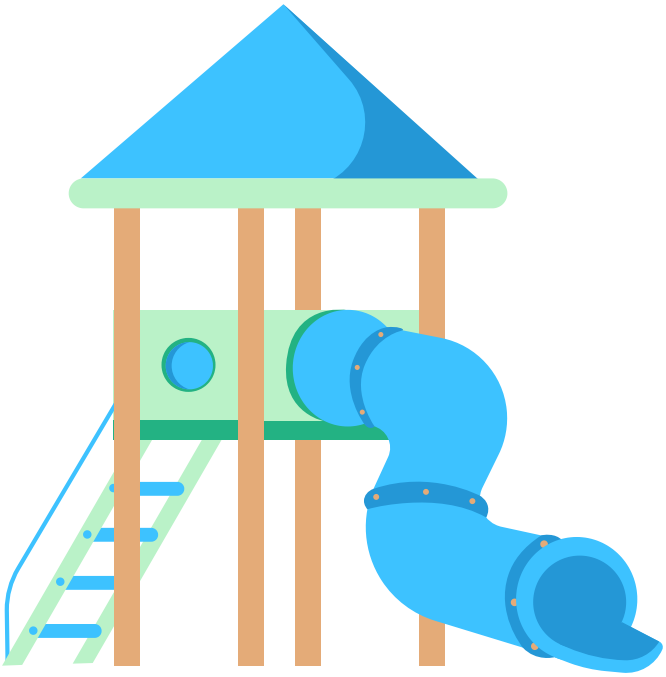

Sports Zone

Stay active with games, team challenges, and activities for all skill levels

Activities

Outdoor Play

Both structured and free play on our grass field or playground helps kids to get out their energy and try new things

Indoor Gym Play

During the cold months, kids have access to an indoor gym with games, activities and challenges for them to explore

Obstacle Courses

Creative problem solving and physical fitness promote helathy minds and encourage teamwork

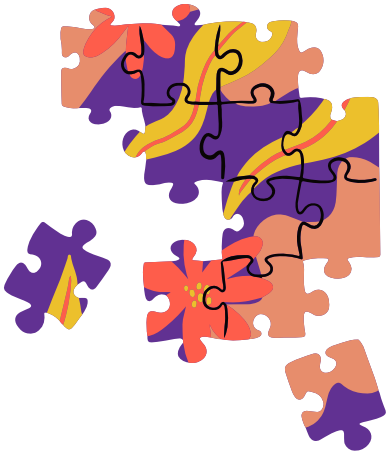

Game Central

Enjoy board games, puzzles, and group challenges that build strategy and teamwork

Activities

Puzzle Zone
Children can work together or alone to complete puzzles and develop spatial-awareness and problem-solving strategies

Board Games
Team building games for kids to relax and enjoy

Challenges
Teacher-organized challenges for kids to flex their strengths in friendly competitions

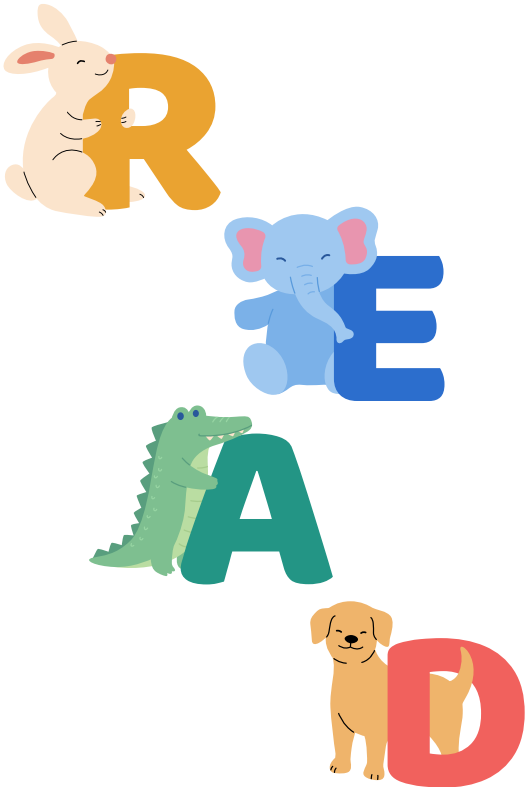

Homework Helpers

Conquer homework, ace projects, and master classes; whether you're studying with friends or working 1-on-1 with our staff

Activities

Homework

Get help before or after school with homework from our experienced caregivers. Ensure you stay on track with your workload and feel confident walking into school

Extra assistance

Have a project to work on? Need time to finish the assigned reading? Spend some time finishing your work, but don’t forget to have fun!
